WATERS-PETTYS

Wednesday noon at the home of Mrs. J. Y. Pettys, McIntosh, Fla., a simple but pretty wedding took place, when Miss May Pettys, youngest daughter of Mr. and Mrs. D. H. Pettys, became the bride of Mr. Wm. Wallace Waters.

The rooms were prettily decorated with bridal lilies and ferns. The ceremony was performed by Rev. Moncrief, pastor of the Baptist church at McIntosh.

Owing to the fact that the groom had only returned a short time from overseas service, the wedding plans were hurriedly made, and the wedding was a very quiet one, the only attendants being the bride's father, Mr. D. H. Pettys, and sister, Miss Cora, her grandmother, Mrs. J. Y. Pettys and the groom's father, Mr. W. T. Waters.

The bride was radiantly lovely in a costume of taupe georgette and crepe de chene heavily embroidered. She carried a handsome corsage bouquet of bride roses. She wore a hat of taupe and blue, a small French creation, with shoes, gloves and accessories to match.

Mr. and Mrs. Waters left immediately after the ceremony for Jacksonville for a short wedding trip. They will return in a few days, and be at home to their many friends at their charming suburban home.

Mrs. Waters is well known throughout Marion county and northwestern Ohio, having spent the past two summers at the family home twenty miles west of Toledo. This past season she attended the high school in Ocala, and by her charming manner won many friends who, she surprised, wish for her all happiness in her married life just started.

The groom is a Gainesville boy, until recently; heeding Uncle Sam's call, he sailed with the Sixth Division, and was on the front from July 29th to Nov. 11th. He is the son of Mrs. W. T. Waters, well known in Gainesville, having been connected with the post-office at that place for twenty-five years.

PEDRO

Pedro, Aug. 21.—The purlo given at the W. O. W. hall was quite a success. Twenty-three chickens were cooked with twenty-five pounds of rice, and it was deliciously cooked, too, by Mrs. E. R. Pruitt and Mrs. W. Swearingen. Of course some of the men folks helped, kept fire around the pots, etc. The hall was beautifully decorated with crepe paper and ferns, and tables were arranged to serve the purlo. Lemonade was also provided. We can't say just how many were there, but most all of the Woodmen and their families, and that would be quite a crowd as they have over forty members in their little lodge. The Woodmen Circle and their families were also there, but they haven't quite as many members as the W. O. W.

STREETCAR HIT OUR SENATOR

Mr. Fletcher Severely Injured but Will Soon Be Able to Resume His Work

(Associated Press)
Washington, Aug. 22.—Senator D. U. Fletcher of Florida, is reported on the way to recovery after serious injury by a trolley car here. The senator exonerated the car crew.

A special to the Times-Union from Washington says:
Senator Duncan U. Fletcher of Jacksonville, senior member of the upper house from Florida, was knocked down and seriously injured here late this afternoon by a street car, one block from his home at 1455 Massachusetts avenue, a few doors from the former German embassy.

His injuries consist of a deep wound in the forehead which necessitated the taking of ten stitches, a concussion of the brain with possible fracture of the skull and cuts and abrasions of the right arm and leg.

His family physician, Dr. Herbert E. Maryn, while declaring that the senator's injuries will not terminate fatally, declares his condition grave and will allow no one to see him.

Completing his usual working day of nine hours, Senator Fletcher boarded a car at the capitol, alighting at Fourteenth street and Thomas circle. It was pouring down rain, and he raised his umbrella, holding it before his face and starting across the opposite track. A speeding car struck him and rolled him thirty feet before the brakes checked it.

After first aid treatment at a nearby drugstore, Senator Fletcher was removed to his home, from which his wife and two married daughters are absent on a vacation trip.

Sensor Fletcher was unconscious for two hours, but was brought back to sensibility by restoratives. He absolved the street car crew of blame, declaring the accident was "all his fault." Many of his colleagues of the Senate and House called at the family home during the evening, and were relieved by the assurance that the senator was seriously but not fatally hurt.

It will be weeks before he can assume his senatorial duties, among the most important of which is the chairmanship of the Senate committee on commerce.

FARMERS FAVOR COUNTY WORK

Voted Thursday Night at Board of Trade Meeting to Retain the Agricultural Appropriation

The meeting of the Board of Trade last night was attended by farmers from nearly every section of the county. From 25 to 30 farmers were present and the spirited discussion and interest shown was evidence enough of the wisdom of the Board of Trade's having taken the matter up in an effort to find out the sentiment in the county. Two main points were developed as a result of last night's meeting.

1. The farmers of the county want the demonstration work to go on, and particularly stressed the eradication of hog cholera.

2. There is considerable dissatisfaction in certain sections of the county, for the most part around the outer edges, because, it is said, the county agent does not visit these sections. And the keynote of the meeting was that the county, being so large, should have three or four county agents instead of one.

To get the sentiment of the farmers present at the meeting Mayor Chace moved that the farmers endorse the appropriation of 1/4 mill for agricultural extension and demonstration work in the county. He asked for a standing vote. The result was 25 farmers voted for the motion and none against it. Several did not vote.

The Board of Trade referred the matter to the agricultural committee to find out what the sentiment in the various parts of the county is. To do this petitions will be circulated, and the committee will appear before the county commissioners on the first Tuesday in September, when the new budget is to be adopted. It was learned Thursday night that some of the farmers in the county already have started the circulation of petitions asking the commissioners to retain the demonstration work.

Some of the communities and sections represented at Thursday night's gathering were: Fellowship, Blitchton, Summerfield, McIntosh, Lowell, Reddick, Martin, Fairfield, Citra, Cotton Plant, Candler.

Talks in favor of demonstration work in the county were made by Nathan Mayo, A. C. Cobb, J. M. McFerrin, John L. Edwards, W. M. Gist, J. W. Davis, W. J. Crosby, Ed Rush, A. C. Blowers, Richard Ervin, the Messrs. Shearer of Fellowship, Mayor Chace, J. H. Brinson, L. W. Duval, John Mathews, Jack McCully and J. A. Jones. Mr. McCully said that at a meeting of about 30 farmers out in the Fellowship section a vote was taken against an appropriation for demonstration work. Later Mr. Shearer of this section pointed out that these farmers were not opposed to demonstration work but took the position they did for the reason, he said, that the county agent had not been giving that section of the county proper attention. Mr. Shearer said that what the county needs is three or four county agents in order that the entire county might be covered. This statement seemed to express the sentiment of the meeting.

Mr. C. B. Howell of Lowell, who had expressed himself unfavorably toward the demonstration appropriation, said that Mr. Shearer hit the nail on the head.

Mrs. Caroline Moorhead, who has resigned her position as agent in the county for work among the women and girls of the county, read her annual report to the meeting. This report will be published.

Another thing that appeared evident last night was that very few know the extent of the demonstration work being done in the county.

From the district agent the information is obtained that the county agent is inoculating an average of 1000 hogs a month. During the period from August 6 to 20 the county agent treated 558 head of hogs. The importance of this work is realized when it is known that over 7000 hogs died of disease in Marion county during 1917-18.

Marion county at present has the largest boys' pig club in the state. There are 103 boys in the club. Each of these boys starts out with a hog costing \$30. This is an investment of \$3000. At the end of the year each boy will have not less than five pigs, worth not less than \$100, totaling \$10,000, or an increase of \$7000. And the boys are learning how to care for the hogs and the value of the better breeds, besides having their interest in hogs stimulated.

Some of the things for which the county agents work are: Community clubs, co-operative organizations, new methods in farming, introduction of new machinery, new crops, rotation, better breeds of live stock, better packing and shipping produce, eradication of hog cholera, cattle ticks and corn weevils and other diseases and pests.

He gets into the hands of the farmers the information and results of research work of the federal and state departments of agriculture and experiment stations.

Two co-operative farmers' organizations have been formed in the county this summer. At present a drive is being made throughout the county against the corn weevil.
